

ARMADI GONTA

Senior iOS Engineer | iOS Lead | Mobile Architect

Jakarta, Indonesia | +62 815-1082-2471 | arigonta@gmail.com | linkedin.com/in/arigonta

PROFESSIONAL SUMMARY

Senior iOS Engineer / iOS Lead with 7+ years delivering high-scale mobile applications across digital banking, fintech, insurance, telecommunications, and OTA. Strong in greenfield mobile platform development, architecture ownership, app security, CI/CD, performance optimization, release governance, and cross-functional leadership for enterprise-grade products such as Wondr by BNI and Livin by Mandiri.

CORE STRENGTHS

iOS & Architecture: Swift, UIKit, SwiftUI, Combine, Objective-C, MVVM, MVP, VIPER, SOLID, modularization, REST API, WebView, deep links, App Store release.

Delivery & Quality: CI/CD, Fastlane, Jenkins, GitHub Actions, CocoaPods, Swift Package Manager, Xcode, XCTest, XCUITest, Firebase, analytics, crash analysis, performance monitoring.

Leadership & Domain: Technical direction, estimation, code review, mentoring, RCA, release governance, stakeholder alignment, digital banking, fintech, insurance, telco, OTA.

CAREER HIGHLIGHTS

- Built Wondr by BNI iOS foundation from scratch across architecture, app security, CI/CD, release readiness, deployment, and production support.
- Led end-to-end Wondr by BNI iOS delivery from tender and proof-of-concept to production launch across product, backend, QA, security, and business stakeholders.
- Improved Livin by Mandiri, MyTelkomsel, Pegipegi, and Allianz Inspire across stability, native performance, analytics, feature delivery, and release compatibility.

PROFESSIONAL EXPERIENCE

PT Bank Negara Indonesia (BNI)

Sep 2024 - Present | Jakarta, Indonesia

Manager - iOS Dev, New Maverick Digital Delivery

- Lead iOS initiatives for Wondr by BNI, setting delivery standards for architecture, code quality, app security, and release readiness.
- Own technical execution across feature delivery, CI/CD, production deployment, post-release support, and cross-functional stakeholder coordination.
- Partner with Product, Backend, Design, QA, Security, and Business teams to deliver scalable and compliant digital banking experiences.

Accenture

Sep 2022 - Aug 2024 | Jakarta, Indonesia

Business & Integration Arch Specialist / iOS Team Lead

- Led Wondr by BNI iOS delivery from tender phase and proof-of-concept through architecture, implementation, testing, release planning, and production launch.
- Maintained and enhanced Livin by Mandiri iOS, focusing on stability, analytics integration, iOS compatibility, feature improvements, and banking security requirements.

Allianz Indonesia

Jun 2020 - Aug 2022 | Jakarta, Indonesia

iOS Engineer - Assistant Manager

- Developed Allianz Inspire iOS App for Bancassurance v2 product delivery, digital sales enablement, and policy management workflows.
- Delivered secure enterprise mobile features and responsive web initiatives with business, product, and technical stakeholders.

Earlier Experience

Mar 2017 - Apr 2020 | Indonesia

iOS Engineer / iOS Developer / Web Developer

- Pegipegi: enhanced iOS app from version 2.9 to 3.0, delivering OTA booking flow, UI, and performance improvements.
- PHINCON: migrated MyTelkomsel from React Native to native iOS architecture, improving platform-specific performance and maintainability.
- PT Krakatau Information Technology: supported Human Capital Information System ERP migration from PowerBuilder to web platform.
